P R E F A C E.

IN submitting to the indulgent consideration of the Members of the Royal Institution a New Catalogue of their excellent Library,* the Editor has fulfilled what has been his anxious desire ever since his appointment to his present office in 1849.

The Catalogue of Mr. William Harris was first published in 1809, and a second edition appeared in 1821. Upon the latter the present Catalogue is based: the whole work, however, has been revised and re-arranged; and the numerous and important additions to the Library during six-and-thirty years† have been incorporated, and will be found in their respective classes. In many cases the alphabetical order previously adopted has been changed to the chronological, with the object of indicating at once the earliest and latest works on the subject;‡ Marginal Notes have been added; and a separate Index of Subjects is given at the end of the Volume. The List of original Historical Tracts (principally of the seventeenth century), of which the Royal Institution now possesses

* The Library was founded in 1803 by the voluntary subscriptions of the Members, amounting, in 1806, to about 6000*l*. The books were selected and purchased by Sub-Committees, including Dr. Shute Barrington, Bishop of Durham, Earl Spencer, Dr. Charles Burney, Sir Joseph Banks, Count Rumford, and others, eminent in Science and Literature.

† Up to July, 1857; see ADDENDA, p. 81.

‡ E. g. *Chemistry*, pp. 215–225.

Eighteen Series, in above three hundred volumes, appears for the first time in the present Catalogue.

Among the recent numerous and valuable Donations to the Library are a copy of Rosellini's "*Monumenti dell' Egitto e della Nubia*," presented by His Grace the Duke of Northumberland, President, R.I., in March, 1855; and a copy of Lepsius's "*Denkmäler aus Ägypten und Äthiopien*," presented by William Richard Hamilton, Esq., F.R.S. (late Treasurer, R.I.), in March, 1857. The Institution now possesses the three great works on Egypt—the French, Italian, and German.

The ABBREVIATIONS occurring in the work are principally those in common use; but a few others may be mentioned. A capital letter and figure [such as (F 3)] occurring in a title denote that the work will be found in the volume of the series of Tracts marked at the back with the letter: [*e. g.* (F. 3) in the third volume of Tracts, series F.]: (O. T. F. 8) refers to the eighth volume of the works printed for the Oriental Translation Fund; and (Camd. 9) to the ninth volume of the works of the Camden Society.

PRYNNE, Wm. Chronological Vindication and Historical Demonstration of our British King's supreme Ecclesiastical Jurisdiction, over all Prelates, Persons, Causes, within their Kingdoms and Dominions, from the First year of King John to the Thirty-fifth of King Edward I. collected out of the ancient Records in the Tower of London, with Mr. Astle's Index. fol. Vol. 2. 1666. Vol. 3. 1670.

"The first volume of this work begins at the first planting of Christianity in this island, and it reaches to the end of Richard the First's reign: whence the second (which was first published) continues the story and precedents down to the death of Henry the Third. Most of the copies of these two volumes perish'd in the dreadful fire of London; and no man has hitherto thought it worth his expense and while to give us a new edition, from any of the few that escap'd. His third has enough (in all conscience) to satisfy any reasonable reader, and supersede his enquiry into the state of the case, in either former or following ages."
